Master Plan Site Layout

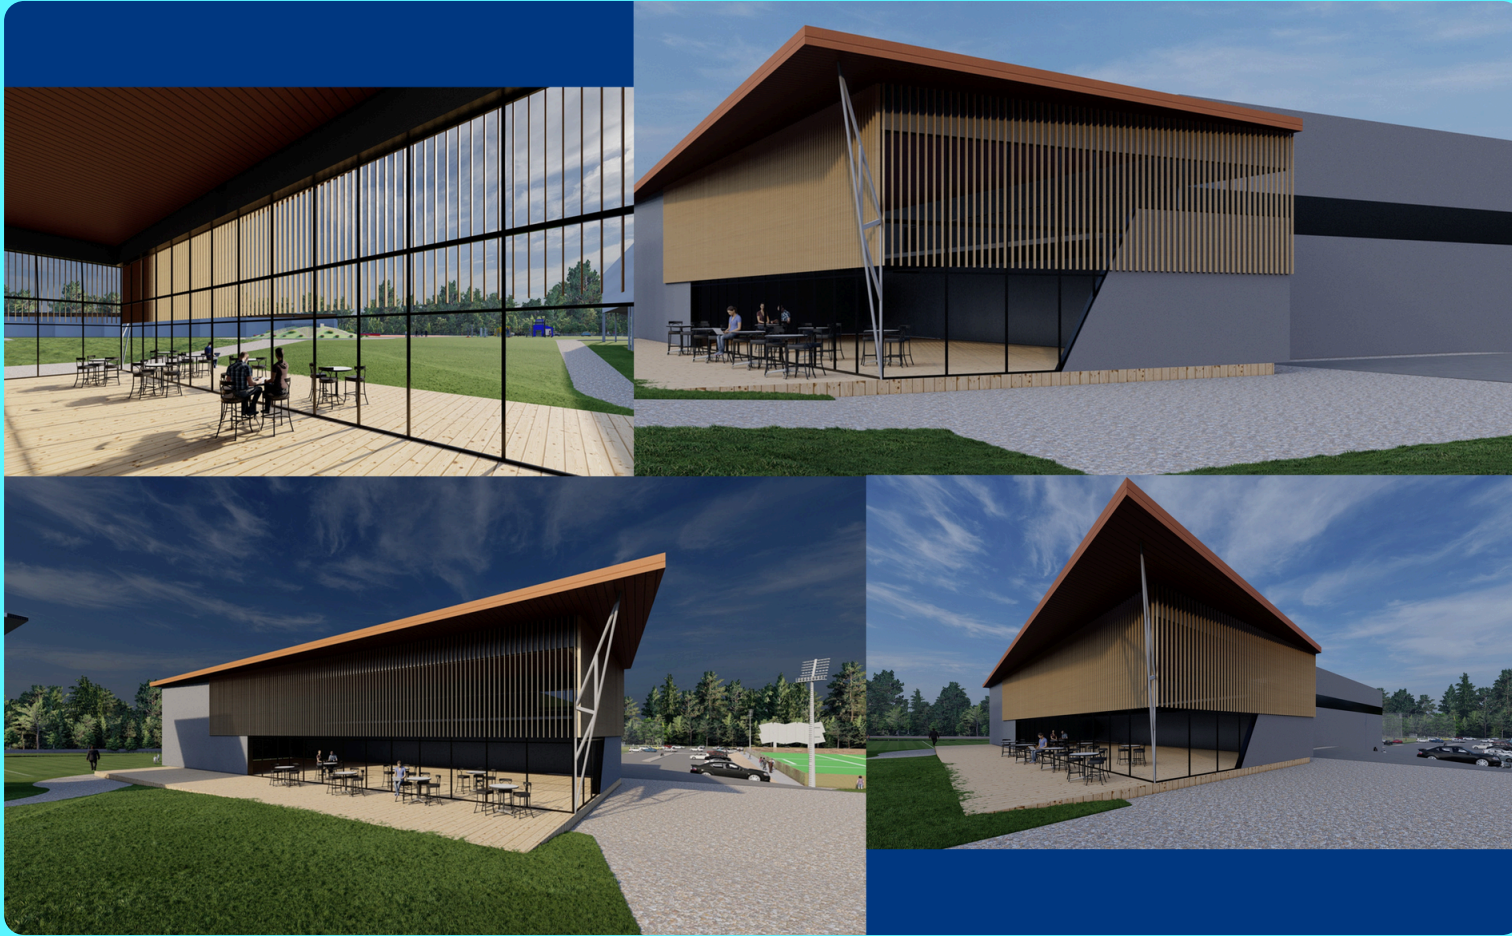

Overall Layout showing existing and proposed development
Community Centre, Athletics Track incl pitch, Full size astro and childrens area

Proposed Athletics Track including pitch

400m International Standard athletics track with internal pitch

Ballymote Community Centre Concept Design

New Community Centre will contain an indoor hall for sports and other recreational activities, 4 changing rooms, a downstairs large meeting/event area, an upstairs tenant, fully accessible for all mobilities and increased parking.

What will new Community Centre and Athletics track give us?

- **Professional facilities** catering for all recreational activities & sports

- Provide a **focal point for community activities** in Ballymote and wider region

- Providing **employment** and contributing to local Ballymote and wider region **economy**

- A “**whole Ballymote community**” **ethos** uniting communities, young & old, people with additional needs and athletes

- **Support clubs & individuals** – amateur, para, special & elite athletes

Why does Ballymote need new Community facilities?

- Ballymotes **population** has increased by 60% since 2000

- **Long waiting lists** for current facilities in the area - nurseries/underage struggle for pitch space

- Not enough large sporting facilities in the region capable of hosting **regional sporting events**

- **Accessible facilities** – lack of sporting facilities for people with disabilities

- Sport facilities are crucial for **integration**, maintaining **female involvement** in sport and providing **role models** to young kids

Short History About Us

Ballymote Community Parks CLG, a voluntary community organisation, est in 1946, has earned a reputation for project success with development of a soccer and gaelic pitch, mini astro pitch, walking track and purchase of an additional 14 acres all completed debt free. The recent grant allocation has designated the facility regional status which will further enable the development plans.
